TnT Portable Appliance Tester

TnT

The TnT is a simple to use hand held Portable Appliance Tester designed to test the electrical safety of earthed and double insulated 240V AC rated appliances.

The TnT is also equipped to test IEC & extension leads, without requiring a separate adaptor to check for polarity. Designed and manufactured in Australia, the TnT complies with the requirements of the AS/NZS 3760 standard.

Simple one button automatic testing makes this unit fast and easy to use. A large, clear backlit LCD display shows digital readings of test results and provides prompts to the operator throughout the test sequence.

The TnT is suitable for electricians and service people who wish to simplify and save time testing.
